Martin Ondrus

+1 (780)-690-8254 | mondrus@ualberta.ca | Linkedin | GitHub | Google Scholar

Scientist developing statistical and machine learning methods for neuroimaging, interested in challenging problems at the intersection of medical imaging, health, data science, and machine learning.

Education

Jan. 2021 –	**Doctor of Medicine, Doctor of Philosophy, (MD/PhD)** *Neuroscience and Mental Health Institute, University of Alberta* Computational Neuroscience Advisor: Dr. Ivor Cribben, Committee: Dr. Russ Greiner, Dr. Bo Cao
2018 – 2020	**Bachelor's of Commerce, After Degree** *Alberta School of Business, University of Alberta* Operations Management Major GPA: 3.97
2014 – 2018	**Bachelor's of Science** *Faculty of Science, University of Alberta* Biological Science Major, Economics Minor With Distinction, GPA: 3.73

Affiliations

Apr. 2023 –	**Alberta Machine Intelligence Institute (Amii)** *Early Career Accelerator Program*
Jan. 2023 –	**Department of Biostatistics, New York University (NYU)** *Visiting Research Scientist*
Jan. 2021 –	**Neuroscience and Mental Health Institute (NMHI), University of Alberta** *Research Scientist*

Scholarships and Awards

2025	Tani Bertha MD/PhD Award ($2,500)
2022/25	Alberta Graduate Excellence Scholarship ($12,000)
2024	Margaret Cook Studentship ($10,000/year - declined)
2024	H. Jean McDiarmaid Scholarship ($30,000/year)
2024	J. Gordin Kaplan Graduate Student Scholarship ($2,000)
2022	Michael Smith Foreign Study Supplement ($6,000)
2021	Alberta Innovates Graduate Student Scholarship (AI GSS) ($31,000/year)
2021	Natural Sciences and Engineering Research Council of Canada (NSERC) Canada Graduate Scholarships – Master's (CGS M) ($17,500)
2021	Walter H. Johns Graduate Fellowship ($5,800)
2021	Richard B. Stein Neuroscience Graduate Studentship ($4,000)
2019	Peter Lougheed Scholarship ($10,000)
2017/18/19	Jason Lang Scholarship ($1,000)
2018	University of Alberta Alumni Advantage Scholarship ($2,500)
2016/17/18	University of Alberta Academic Excellence Scholarship ($2,000/$1,500/$2,000)
2017	Alberta Transplant Institute (ATI) Undergraduate Summer Studentship Award ($1,500/month)
2017	Summer Students' Research Day Poster Presentation Award ($300)
2016	Motyl Endowment Cardiac Sciences Summer Studentship ($1,300/month)
2014	Alexander Rutherford Scholarship ($2,500)
2014	University of Alberta Entrance Scholarship ($1,000)

Work Experience

Andromeda Medical Imaging | **May 2025 – Aug. 2025**
Machine Learning Engineer

- Developed a two-phase deep learning framework in PyTorch for intracranial vessel assessment from multiphase CTA, achieving AUROC up to 0.88 for occlusion detection and 0.94 for segment localization.
- Integrated CTA-derived surrogate features (time-to-perfusion and inter-phase difference maps), demonstrating that these significantly improved occlusion discrimination compared to standard CTA inputs.
- Implemented CBAM attention to highlight clinically relevant vascular regions, enabling interpretable and accurate occlusion localization for automated stroke triage.

North Edmonton Kia | **Sep. 2021 – Mar. 2023**
Data Engineer, Sales and Service

- Created a recurrently updating dashboard for one of Western Canada's largest automotive dealership groups to empower executives and marketing departments to data-informed decision making in their advertising strategy
- Designed and developed a SQL, Python, and Google Cloud based data transformation and visualization pipeline for over 60,000 semi-structured data points which unified key customer information across 4 different databases
- Presented final pipeline in an understandable manner to a non-technical audience, successfully onboarded clients, and reduced process lead time by more than 50% resulting in $10+$ hours saved during marketing campaigns
- Optimized back-end computations and delivered final data product at less than 10% of original budget

Volkswagen Canada | **Jan. – Apr. 2020**
Data Scientist, National Dealers Advisory Council

- Led a team of 3 data scientists in modeling 2022-2025 Canadian sales of Volkswagen's most important vehicle release in the past decade, the fully electric VW ID.4

- Built an intuitive Excel-based simulation tool and visualization interface using solver and VBA for back-end computations which optimized allocations to maximize profitability and product turnover of the launch
- Presented deliverable and forecasts to Volkswagen Canada senior leadership and advised on regional allocation of over 6,000 new and highly valuable ID.4 vehicles

Teaching Assistant | **Jan. – Dec. 2019**
MGTSC 312, Alberta School of Business

- Led students in hands-on statistical analysis exercises using Excel, covering topics such as simple and multiple linear regression, hypothesis testing, dummy variable encoding, and feature selection
- Communicated complex concepts clearly and concisely to approximately 80 students in weekly lab lectures, ensuring effective understanding and engagement
- Facilitated student success by clarifying complex concepts, promptly addressing inquiries, and maintaining up-to-date knowledge of course material

Technical Skills

Programming: Python (*pandas, numpy, matplotlib, seaborn, scikit-learn, pytorch*), R (*tidyverse, ggplot2, caret, e1071, randomForest, glmnet, parallel*), SQL, Matlab
Quantitative: Data wrangling & pre-processing, visualization, database querying, experimental design, statistical inference and hypothesis testing, algorithm design, optimization, machine learning and prediction
Other: Jupyter/Jupyter Notebook, Markdown, LaTeX, Git/Github, Distributed Computing, Unix Shell, SLURM
